Subject: Fw: 9/8 Passaic River CAG meeting

I sent the following message yesterday to Doug alone, because I'm afraid I had lost track of who exactly is co-chair (sorry!). I have not heard back from Doug yet - perhaps you could discuss and advise next week.

Subject: 9/8 Passaic River CAG meeting

I tried to call, but wasn't sure if I had the right number...

For the 9/8 CAG meeting, we had the following topics on the agenda:

- Lessons Learned from Hudson River; and
- Introduction to the contamination and movement of contaminants in the Passaic River system.

However, Elizabeth Butler just asked if she could have a significant amount of time on the agenda for Tierra to present progress on the Removal and for Victor to bring up an issue related to SuperJTI.

Since there is a lot going on related to the Removal right now, I would propose to alter the CAG schedule as follows:

For the 9/8 meeting:

- Tierra presentation on Removal progress.
- Victor's SuperJTI issue (CAG is supposed to designate a liaison to work with EPA HQs SuperJTI personnel).
- Lessons Learned from Hudson River.

For the 10/13 meeting:

- Introduction to the contamination and movement of contaminants in the Passaic River system.
- Understanding human health and ecological risk assessments and how they are used in decision making.

I have discussed the risk assessment presentations for the 10/13 meeting with the people who will be doing them, so I know there will be enough time for both of these topics.

Please let me know what you think.
